## **G+20 Pairs Tournament**

G+20 is a unique pairs tournament which enhances the opportunities of young players to improve their game. It successfully debuted for the older generations as well, many of whom considered it as an event closing the age gap.

More than 40 pairs registered in the first year, and almost 60 took part in each of the recent years.

G+20 was established as a symbol of solidarity between generations, with the mission to maintain contact between different age groups and closing the gaps between them.

*The difference of age between members of a registered pair must be at least 20 years.*

In the course of registration the system automatically controls eligibility, but birth dates will not be made available to the public.

No other special rules apply.

***Players registered for the András Boóc Pairs Tournament will receive a discount for participation at this tourney.***
